NATURE-BASED SOLUTIONS AT CHANGENOW

24-26 APRIL 2025 |
GRAND PALAIS, PARIS

GET INSPIRED

changeNOW

with our curated selection
of pitches and conferences

Environmental Intelligence: Bridging Ancient Wisdom, Modern Science and Technology

April 24th at 12:00pm to 1:15pm CEST - Collective Stage
ChangeNOW session I OPEN TO ALL

Nature as an Economic Choice

April 24th at 1:15pm to 2:30pm CEST - Legacy Stage
ChangeNOW session I OPEN TO ALL

Large Scale Land Restoration

April 24th at 2:45pm to 3:45pm CEST - Collective Stage
ChangeNOW session I OPEN TO ALL

Session Pitch solutions Land & Drought Resilience

April 25th at 2:30pm to 3pm CEST - Garden Stage
ChangeNOW session I OPEN TO ALL

Protect, Preserve, Act: A Collective Mission for Nature

April 26th at 11:15am to 12:30pm CEST - Legacy Stage
ChangeNOW session I OPEN TO ALL

Biodiversity: Solutions for a Thriving Planet

April 26th at 3:15pm to 4:30pm CEST - Collective Stage
ChangeNOW session I OPEN TO ALL

about all the possible solutions in our World Expo

Aquasaic - United States of America - Ocean & Water

Aquasaic is the cobalt waste-to-value pipeline while delivering clean water for every life's mosaic.

BeeOdiversity - Belgium - Biodiversity

BeeOdiversity provides advice and biomonitoring that combine nature-based solutions with bees, AI and satellite imagery.

Code of Nature - Republic of Korea - Land & Agriculture

Code of Nature, Inc. restores degraded soil using moss. We help rebuild ecosystems from the ground up.

Fanyatu - Belgium - Biodiversity

ACTION for KNOWLEDGE. Communities that commit to planting trees receive permaculture training.

Justdiggitt - Netherlands - Biodiversity

Justdiggitt believes in the power of nature to restore degraded landscapes in Africa and bring back vegetation, biodiversity and water.

Life Terra Foundation - Netherlands - Biodiversity

Life Terra plants trees to restore ecosystems by promoting carbon removal & biodiversity credits, ensuring long-term impact.

Mycocycle - United States of America - Circular Economy

Mycocycle decarbonizes the materials supply chain in partnership with nature, using fungi to reduce dependence on petrochemicals.

MyCofarming - Netherlands - Ocean & Water

MycoFarming engineers biofilters using fungi to extract pollutants from water, effectively cleaning it with minimal energy and emissions.

NatureRe Capital - Switzerland - Biodiversity

NatureRe combines investment, carbon and restoration expertise focusing on ecosystem restoration.

Novobiom - Belgium - Circular Economy

Bridging the power of fungi and digital technologies to revolutionize waste management.

The New Materialist - France - Circular Economy

Designing innovative biomaterials that guide full-scale industrialization to foster sustainable transformation.

Urban Forests - Belgium - Cities

Urban Forests breathe new life into your environment. More biodiversity. Less maintenance.

ENGAGE

with the top changemakers
across the ocean ecosystem

Biodiversity Intelligence: Leveraging Data & AI for a Net Positive Future

April 24th at 2:00pm to 2:45pm CEST - The Future Lab
ClimateSeed | OPEN TO ALL

Investing in Science-Backed Nature Restoration: Where Profit Meets Planet

April 25th at 12:00pm to 12:45pm CEST - The Future Lab
NatureRE Capital | OPEN TO ALL

Carbon Credits & Biodiversity: Building a Nature-Positive Climate Strategy

April 25th at 4:00pm to 4:45pm CEST - The Earth Room
ClimateSeed | OPEN TO ALL

Biodiversity Meetup

April 25th at 5:00pm to 6:00pm CEST - Community Hub
ChangeNOW Session | OPEN TO ALL

See you there!
