the women solving global problems in our World Expo

ADN GROUP - France - Mountain

ADN GROUP provides innovative dismantling solutions for the composite industry.

Äerd Lab - Luxembourg - Cities

Äerd Lab turns construction waste into 3D-printed, self-drying clay bricks with a unique geopolymer mix, cutting CO2 by 70%.

Anima - France - AI for Impact

Anima co-founds nature-inspired ventures with determined researchers, engineers, designers, entrepreneurs and corporates.

BIOVOX - Germany - Health

BIOVOX pioneers medical-grade bioplastics, offering innovative, safe, and cost-efficient solutions for medtech, pharma, and laboratories.

change:WATER Labs - United States of America - Ocean & Water

change:WATER Labs uses NASA-inspired technology to enable waterless, sewerless sanitation: The "iThrone" toilet.

Dunya Analytics - United States of America - Biodiversity

Dunya Analytics' SaaS platform automates science-based risk assessments for biodiversity and nature.

LAERO Design Studio - United States of America - Ocean & Water

Cycleau is a compact water reuse system that can be retrofitted under sinks and showers to recycle greywater to potable standards.

Lapee - Denmark - Inclusion

Lapee is a revolutionary urinal designed specifically for women, providing a safe and hygienic solution for outdoor events.

Planet On stage - France - Education

Planet On Stage turns every stage into a platform for environmental action through powerful storytelling.

Planetary Service - Switzerland - Changing Habits

The planet has 125M 18-year-olds. Imagine if they all did a year of planetary service—250M hands working for regeneration.

Save Your Wardrobe - United Kingdom - Fashion

Save Your Wardrobe enables brands to digitize and streamline aftersales operations.

Serein - United Kingdom - Inclusion

Serein's experts utilise data, science, and research to advance equity and inclusion that help improve business outcomes.

Syrinx - Australia - Ocean & Water

EnPhytoBox® combines nature and digital technology to effectively treat polluted water at the source with remote monitoring and control.

Théra - France - Biodiversity

Théra pioneers place-based solutions, offering resources and support for land and community regeneration.
